

APEX[®]
HEART
INSTITUTE
(A Unit of TCVS Pvt. Ltd.)

Apex Heart Institute is a centre of excellence for cardiac ailments with two ultra modern cath labs and two state of the art cardiac surgical theatres. It has 85 beds comprising of 3 medical ICUs, 2 surgical ICUs, 1 HDU, a general ward and rooms in various categories.

We have an outstanding team of internationally acclaimed doctors, who ensure delivery of quality care with highest level of expertise. Our well trained paramedical staff, world class infrastructure, efficient systems and processes ensure effective services aiding to speedy recoveries. It is a matter of pride and privilege for me to be an integral part of Apex Heart institute and it is our endeavour to bring the frontiers of science forward in a manner which fosters research and training.

Our vision is to be the leaders in advanced patient care and research and we are well placed to achieve it, as we have the right technology and the right mindset. In this direction we have instituted **TRICO (Transradial Intervention Course)** by leveraging the knowledge and practices of world renowned interventional cardiologists, which today is the largest and the most popular radial course in the world.

Dr. Tejas M. Patel
Chairman & Managing Director
